Who to contact

Decision-makers and official contact routes for private schools, chains, associations and government school systems in India

Prepared by Anoop Dobhal, CodeSchool (Bullseye Knowledge System Limited)

10 November 2026

Organisation-level contacts only; re-check every contact on the official site before use

Report title: "Win booklists through principals, not ministries"

Contents

About this report

This guide lists only organisation-level contacts (offices, designations, official websites and office emails or phones), never individuals. Contacts change often and several are marked unverified: re-check each one on the organisation's own site before use. Build any list of school contacts as a private, git-ignored file, and follow the outreach rules in this report. Not legal advice.

Summary . . . 3

Teachers propose, principals list, managements pay . . . 3

Three chains buy centrally; most others still sell school by school . . . 5

250-plus Sahodayas reach more CBSE principals than any trade show . . . 7

Government systems enter through MoUs, CSR and training, not booklists . . . 8

Each school's contacts sit in its CBSE disclosure, not in SARAS . . . 10

Email the school office; never cold-WhatsApp or pay a commission . . . 11

A five-wave sequence fits the 29 January booklist close . . . 12

Conclusion . . . 13

Appendix: CBSE regional offices and Centres of Excellence . . . 13

Appendix: NVS regional offices . . . 14

Summary

For an April 2027 launch, CodeSchool's buyers are the principals and managements of private CBSE schools, not head offices or government systems. In a standalone private school, the maths coordinator (for Classes 3-5), the computer teacher (for the Classes 6-8 AI strand) and the academic coordinator propose a title after seeing specimens. The principal signs the booklist, and the trust or society signs off anything that costs money. Parents then pay through ordinary booksellers. Only three private chains have documented central control of books and curriculum: DAV, Podar and Orchids. They and other likely central buyers (Narayana, Sri Chaitanya, Lighthouse Learning, Manav Rachna) run 6-12-month head-office cycles, so they are 2027-28 pilot and 2028-29 adoption targets rather than January 2027 wins. Federated networks such as the DPS Society, Bharatiya Vidya Bhavan and Chinmaya can circulate an introduction, but their schools decide one by one. KVS, NVS, Sainik, AWES, RMS, AEES, NESTS and state schools have no booklist route. They take in outside programmes through head-office MoUs, CSR-funded foundations and teacher-training tie-ups, and they will lean first on CBSE's free CT&AI handbooks. The fastest multiplier is CBSE's own network: 250-plus Sahodaya clusters and about two dozen Centres of Excellence. CBSE has made "Computational Thinking and Understanding AI" its 2026-27 teacher-training theme. Each school's official email and phone are in its CBSE Mandatory Public Disclosure, not in SARAS. Outreach to those addresses is defensible under the DPDP Act's publicly-available-data exclusion if every record carries its source. Cold WhatsApp messages, unregistered telemarketing and any commission to a school are not defensible.

> **How to use the contacts in this report.** The repository is public, so this report lists only organisational contacts: designations, offices, official websites and office mailboxes or switchboards. It names no individual. Every contact was collected on or around 10 November 2026, and many come from secondary pages. **Re-check each one on the organisation's own website before using it.** Status labels: **Official** means seen on the organisation's own site or document during research. **Secondary** means it came from a member school's page, an older government page or a search snippet. **UNVERIFIED** means it came from a directory, an aggregator or background knowledge. † marks a mobile number or Gmail address that the organisation itself publishes as an office contact; treat it as organisational and re-verify it. This is research, not legal advice.

Teachers propose, principals list, managements pay

CBSE has fixed who teaches the content, and that tells CodeSchool who proposes the title. The CT&AI curriculum gives Classes 3-5 to "Mathematics and other subject teachers". In Classes 6-8 it gives CT to subject teachers and AI literacy to computer teachers, who also assess the projects (CBSE CT&AI curriculum, section 8.1). Its status is no longer in doubt. Circular Acad-15/2026 (1 April 2026) launched the curriculum for Classes III-VIII from 2026-27 and "advised" schools to implement it (CBSE Acad-15/2026). Acad-18/2026 (9 April 2026) states that "the curriculum mandates CT + AI + Ethics + Unplugged Learning" and tells schools to use free resource books that follow the NCERT maths chapter order (CBSE Acad-18/2026). The time budget is **50 hours a year in Classes 3-5 and 100 hours in Classes 6-8** (40 CT, 20 AI, 40 projects). All three facts were checked against the official PDFs (CodeSchool CBSE verification, 5 Nov 2026). A principal therefore isn't deciding whether to teach CT&AI; that is settled. The choice is whether to buy anything beyond the free handbooks.

In a standalone private school, the formal frame is the School Managing Committee under Chapter 8 of CBSE's Affiliation Bye-Laws. It works "subject to overall control of the Society/Trust/Company", with a separate Manager role for the trust's representative (CBSE: School Management Committee; the fetch was blocked, so this is from a search snippet). The working sequence is older and better documented. Publishers send specimen copies, teachers and heads of department choose a book for each subject, and the principal issues the list (Millennium Post; Oswal Publishers). Lists go out under the principal's name, with title, publisher and ISBN for each book (DPS Bhopal 2025-26; EPS Delhi 2026-27). Schools also post a "Declaration for List of Books as per section 2.4.7(B)" of the bye-laws (Birla High School Mukundapur). CBSE's 2024 revision reportedly requires that declaration to be signed by both the manager and the principal (Careers360, Aug 2024). That dual signature is the best evidence that management, not only the principal,

owns the final list. Booklist economics are also a management matter: press reports allege publisher commissions of 15-40% paid to managements (Tribune India). No source documents a formal booklist committee or a fixed calendar. The December-January window comes from upload dates (DPS lists posted in February for an April session) and from CodeSchool's own plan, which puts the adoption deadline at about **29 January 2027** (launch plan).

The table below sets out the map by school type. Entries marked *inference* are reasoned from structure, not stated by a source.

School type	Who proposes	Who approves	Who pays	When
Standalone private CBSE	Maths HOD or primary coordinator (Classes 3-5); computer teacher (Classes 6-8 AI); academic coordinator checks CBSE fit	Principal signs the list; trust chair, secretary or manager approves cost and terms; SMC ratifies anything unusual (*inference*)	Parents, through the booklist and open-market booksellers; the school's own budget for a school licence	Specimens in December, list fixed by about 29 January, published January-February
Centrally run chain (DAV, Podar, Orchids; probably Narayana, Sri Chaitanya, Lighthouse, MRIS)	Central academics or curriculum team	Central academics plus central procurement	Parents, through a chain-prescribed list	Head-office cycle of 6-12 months (Raysolute, a vendor estimate)
Federated network or franchise (DPS Society, Bhavan's, Chinmaya, Vidya Bharati, Zee Learn)	As for standalone schools	Principal and local trust or franchisee; the centre can endorse or circulate (*inference*)	Parents	As for standalone schools
Budget private schools (NISA and state associations)	Owner-principal	Owner	Parents, and they are price-sensitive	As for standalone schools; many are on state boards
KVS (about 1,250 schools)	JC (Academics) office at HQ; ZIETs for training	Commissioner and HQ for anything system-wide; principals for small local buys (*inference*)	Government funds	No booklist route; HQ circulars
NVS / JNVs (661; from Class 6)	HQ academic wing; regional offices; Navodaya Leadership Institutes (UNVERIFIED)	HQ, often with a ministry MoU	Government or CSR	MoU cycle
Sainik Schools	Society (MoD) for its own schools; the school's own management for new partnership schools	Society or school management	Government, or the partner school's own fees	Partnership schools behave like private schools
AWES (Army Public Schools)	AWES HQ academic circulars	AWES HQ; school managing committee for local buys (*inference*)	School funds	Society circulars
RMS (5 schools)	DGMT (MT-15), Army HQ	Army HQ	Government	Army channel
AEES	AEES central office	AEES central office	Government	Society circulars
EMRS / NESTS	NESTS academic division	NESTS Commissioner, by MoU	CSR or foundation	MoU precedent covers 2026-28
State government schools	SCERT (content and training); State Project Director (budget plan)	MoE Project Approval Board (budget); state Education Secretary (MoU)	Samagra Shiksha or CSR	Plan submitted, then approved in spring (*inference*)

KVS and JNV counts come from a vendor blog dated April 2025 (Tynker).

The table shows that only the first three rows can produce a booklist adoption by January 2027. In every other row the buyer is an institution with its own budget cycle, and the realistic April 2027 outcome is a signed pilot rather than revenue.

Three chains buy centrally; most others still sell school by school

The evidence for central control is strongest in three places. The DAV Centre for Academic Excellence, "a wing of DAVCMC", prescribes books "uniformly, in DAV Public Schools PAN India" (DAV CMC specimen notice.pdf)). Its schools' syllabi cite DAV's own Publication Division titles (DAV Bistupur Class VII). Podar describes a "centrally designed curriculum", with a Chief Academics Officer function and a Purchase Department under a Chief Procurement Officer (Podar Education Network). Orchids runs in-house books, kits and a coding curriculum under K12 Techno Services (Orchids DEL). All three already publish their own content, so CodeSchool should approach them as a licensing or co-publishing partner, not as one more booklist title. Federated networks are the opposite case. DPS booklists differ from school to school (DPS Bhopal and DPS Rau), and the central body can only open doors. No chain except Podar publishes a vendor or partnership desk. For every other chain, the route is the general corporate inbox, asking for the academics head and procurement.

Network	Schools (source, date)	Board	Decided	Head office	Official contact route	Status
DPS Society	About 215-220 (Tynker, Apr 2025)	CBSE	School level (*inference*)	F-Block, East of Kailash, New Delhi 110065 (not Mathura Road)	Society Secretariat: secretary@dpsfamily.org, +91-11-43126700 (contact)	Official
DAV CMC	"Over 900 institutions" of all types; about 206 schools in India (Tynker)	CBSE	Central (DAV CAE)	Chitra Gupta Road, New Delhi 110055 (Hansraj College)	davcmc.net.in; phone +91 11 35661400 (both on the DAV CMC home page)	Official

Lighthouse Learning (EuroSchool, Billabong)	60 K-12 schools across brands (Business Standard, Nov 2025); EuroSchool says 21	CBSE, ICSE, Cambridge	Probably central	Registered office: 801 Windsor, Kalina, Santacruz (E), Mumbai 400098	info@lighthouse-learning.com, 022 6156 5656 (site); EuroSchool connect@euroschoolindia.com, +91 7038 555 555†	Official
Seth M.R. Jaipuria	"75+ campuses across 7 states and 65 cities" (site, Nov 2026)	CBSE, ICSE	Probably central	Not shown on site; secondary sources give Shanti Chambers, Pusa Road, or a Kirti Nagar address	Contact form at jaipuriaschools.ac.in/contact-us; no email or phone published	Count Official; address UNVERIFIED
Narayana Schools	Not confirmed	CBSE and state	Probably central	Melange Towers, Madhapur, Hyderabad 500081	info@narayanaschools.in, 1800-102-3344 (contact)	Official

Network	Schools (source, date)	Board	Decided	Head office	Official contact route	Status
Sri Chaitanya	About 750 schools and colleges (EducationWorld, undated)	CBSE and state	Probably central	Kasetty Heights, Madhapur, Hyderabad 500081 (about)	info@srichaitanya.net, 040-66060606 (about); schools admissions 040-44600600 (schools site)	Official
Manav Rachna (MRIS)	10 schools in 5 cities (contact)	CBSE, IB	Probably central	Not shown on site	info@mris.edu.in, +91 90989 91000†	Official
Zee Learn (Mount Litera)	Mount Litera Zee School: "over 120 schools in 110+ cities" (Zee Learn)	Not confirmed	Franchisee decides; centre sets the framework	135 Continental Building, Dr Annie Besant Road, Worli, Mumbai 400018	+91 22 7154 1895; franchise desk 09320063100†; the investor inbox is a last resort only (Zee Learn)	Official
Bharatiya Vidya Bhavan	About 100 schools (Wikipedia, possibly dated)	Mostly CBSE	Kendra or school (*inference*)	Munshi Sadan, Chowpatty, Mumbai 400007	bhavan@bhavans.info, (022) 23631261 (head office)	Official
Chinmaya Vidyalayas	81 in India (CCMT Education Cell)	Mostly CBSE	Local trusts; the Cell sets the framework	CCMT Education Cell, Coimbatore	No general contact confirmed	Gap
Vidya Bharati	12,828 formal schools (2019, Wikipedia)	Many state, some CBSE	State units	Prayag Sadan, Nehru Nagar, Ring Road, New Delhi 110065 (contact)	vbsamvad@gmail.com† (no phone published)	Official†
SSRVM Trust	"120+ institutions" of all types	Not confirmed	Unknown	Kanakapura Road, Bengaluru 560082	080-67976700 (Art of Living)	Secondary
Amity International Schools	Not confirmed	Not confirmed	Unknown	AIS Noida flagship, Sector 44, Noida 201303	amity@aisn.amity.edu, 0120 4399000 (Amity; page returned 404 on 10 Nov 2026; details match a search-engine copy)	Secondary; flagship school only
Amrita Vidyalayam	34 CBSE-affiliated (Amrita)	CBSE	Unknown	Not found	Not found	Gap

The following were not researched or not found: GD Goenka, Edify, Presidium (branches use presidiumonline.com), Lotus Valley, Pathways, Sanskriti, DWPS, The Shri Ram Schools (tsrs.org; its phone is aggregator-only) and Indus. Indus and Pathways are IB-heavy, so they fit a CBSE product poorly.

Hyderabad deserves a note. Narayana and Sri Chaitanya both run central academic products from Madhapur, and both have CBSE and state-board wings. If Telangana or Andhra Pradesh is a launch region, a single "yes" from either is worth more than dozens of standalone schools. Neither, however, is likely to move inside a 10-week window. The honest pitch to every central chain this winter is a funded pilot in two or three of its schools from January to March 2027, with group-wide adoption in 2028-29.

250-plus Sahodayas reach more CBSE principals than any trade show

Sahodaya School Complexes are CBSE-recognised voluntary clusters of 5-10 or more neighbouring schools. Their member principals elect a President, a Secretary and a Treasurer for 2-3-year terms, and complexes are expected to meet monthly and run an annual action plan. CBSE counted "more than 250" in 2022, and since then only complexes registered on its micro-site are recognised (the micro-site address in that circular, sahodayaschools.org, redirected to an unrelated domain on 10 November 2026, so do not use it) (CBSE Circular Acad-40/2022). Some are large: Indore's reportedly has over 100 members (Free Press Journal). CBSE publishes no directory of office bearers. The route is therefore the Sahodaya's own website, or the office of the school that holds its presidency, reached through that school's official address. The 2026-27 training theme makes the offer obvious. CBSE's own plan is one-day district and regional workshops (6 CPD hours), half-day lead-school sessions and online Board sessions on "Computational Thinking and Understanding AI" (CBSE CT&AI webinar slides, 28 Apr 2026). A free, CBSE-aligned teacher workshop that maps chapter by chapter to the CBSE handbooks is what a Sahodaya secretary needs to fill that slot. It also puts the specimen in front of the maths coordinators and computer teachers who propose titles. It must never imply CBSE endorsement, because CBSE stresses that the curriculum is "without dependence on any platform" (Acad-18/2026).

The other bodies differ in reach and fit. NPSC is all-CBSE and Delhi-centred, and it co-hosted the 2019 national Sahodaya conference. NISA reaches budget schools at scale but mostly on state boards. The state management associations are mainly fighting fee regulation and RTE dues in 2026, which makes them poor sales channels and better forums for a compliance-framed talk.

Body or event	Reach (source, date)	When	Cost	Official contact	Status
CBSE Sahodaya complexes	250+ clusters (2022)	Year-round; city meets	Free workshops (*inference*)	sahodaya@cbseshiksha.in for CBSE Sahodaya queries; Academics: directoracad.cbse@nic.in (Acad-40/2022)	Official (2022 circular; re-verify)
National Sahodaya Conference	1,000+ leaders at the 2025 Dubai edition, 4-5 Nov 2025 (News On AIR)	No 2026 edition found by 10 Nov 2026	2019 delegate fee Rs 7,500 (CBSE report); no sponsor rates published	Organised by the host Sahodaya, under CBSE	Watch CBSE notifications

State associations: MESTA (Maharashtra), KAMS (Karnataka), TRSMA (Telangana), APPUSMA (Andhra Pradesh), Tamil Nadu bodies	MESTA claims about 20,000 members (2023, Lokmat)	MESTA's convention has been held in January	No rate cards found	Not retrieved	Gap
DIDAC India 2026	27,546 visitors and 417 exhibitors in 2025	**25-27 Nov 2026**, BIEC Bengaluru	Shell stand USD 590/sqm (9 sqm minimum), about USD 6,600 with GST and fees; workshop slot USD 5,700 (brochure)	sales@didacindia.com	Official brochure
Elets World Education Summit	Invite-only; about 100 founders, owners and directors per summit, with a K-12 Leaders Forum for directors and principals (WES)	Several a year; 2027 India dates not found	Price on request	partnerships@eletsonline.com	Official
EducationWorld rankings conclave	Billed as the largest K-12 leader gathering (EW)	Mid-October (after booklists close)	Not published	—	Official

GETI's leadership roundtables (June and October 2026) and the Schools of India Summit (30 Oct-1 Nov 2026) have already passed. One regional precedent matters more than any of them: an edtech vendor hosted its own "Great Schools of India" summit in Dehradun for 50-plus leaders on 24 October 2026 (Extramarks). A CodeSchool-hosted city meet, co-run with one Sahodaya in each launch city in January, gives the same room for the cost of a hall. DIDAC opens before specimens exist (15 December). A stand there buys visibility CodeSchool can't yet convert, so the better use of DIDAC is to visit, to scout competitors' CT&AI titles and to meet distributors.

Government systems enter through MoUs, CSR and training, not booklists

The Ministry of Education's CT&AI rollout from Class 3 is being run "in close coordination with CBSE, NCERT, KVS, NVS and state education departments" (Careers360). The central systems helped frame the programme and will use the free CBSE handbooks first. The documented precedents for outside programmes are society-level MoUs, mostly CSR-funded. NESTS renewed an MoU with Learning Links Foundation to run Amazon Future Engineer (computer science and AI) across EMRS from April 2026 to March 2028 (Devdiscourse). NVS signed with IBM for Vigyan Jyoti as part of a ministry batch of 106 MoUs (MoE/PIB). In the states, AI and coding have arrived through no-cost or CSR partnerships rather than open tenders. Examples are Telangana with Amazon in July 2026 (Elets), Samagra Shiksha Assam's six MoUs on 4 September 2026 (Sentinel Assam), and Andhra Pradesh with IIT Madras and Bodhan AI (Careers360). Companies book this work under Schedule VII item (ii), "promoting education", of the CSR rules (Cisco India CSR). For a for-profit content company, the practical door is to supply content and training to a CSR-funded implementing NGO that holds the MoU. Kerala is the exception that proves the rule. KITE builds its own curriculum and distributed 29,000 open-hardware robotics kits itself, which makes Kerala a co-development prospect at best (NewKerala).

System	Office to approach	Official contact	Route in	Status
CBSE Academics	Director (Academics)	CBSE Integrated Office Complex, Sector-23, Phase-1, Dwarka, New Delhi 110077; 011-24050612; directoracad.cbse@nic.in (Acad-18/2026)	Information only; COE workshop support needs CBSE approval, and no vendor policy was found	Official

System	Office to approach	Official contact	Route in	Status
State schools	State Project Director, Samagra Shiksha (budget plan); SCERT (content, training); Education Secretary (MoU)	Confirmed portals: SCERT UP, SCERT Delhi, SCERT Haryana, SCERT MP. Gujarat SPD office: Sector 17, Gandhinagar, 079-22881004, estssaguj@gmail.com† (contact)	CSR MoU now; a budget line goes to the PAB in a later cycle	Partial

Two facts about state money set the timetable. PAB minutes are published state by state (PAB Kerala 2025-26). Samagra Shiksha's ICT money is hardware-led: Parliament was told of **20,456 ICT labs approved with Rs 911.13 crore sanctioned** (Lok Sabha AU1238). A workbook-and-kit programme fits neither a lab line nor the April 2027 window. For 2027-28 the realistic government outcome is one CSR-funded pilot, with NESTS (the clearest precedent) or with an NVS region that shares an NLI campus, such as Hyderabad. Every letter to a government office should propose a free or CSR-funded pilot, never a sale, and should be sent only to the office's published mailbox.

Each school's contacts sit in its CBSE disclosure, not in SARAS

SARAS (saras.cbse.gov.in) is the authoritative list of CBSE-affiliated schools. A live school record shows the affiliation number, address, website, head of institution, school type and status, affiliation period and managing trust. It has **no email or phone field** (SARAS record). Official contact details are in the school's own **Mandatory Public Disclosure** (Appendix IX). Schools must post it prominently on their websites, with a visible home-page icon, under CBSE Circular 3 of 5 March 2021 (CBSE Circular 3). SARAS now generates the document in a standard "SARAS 6.0/7.0" format (example, May 2026). CBSE revised Appendix IX in January 2026 (Circular 1/2026 copy) and set a 15 February 2026 deadline for schools to complete their disclosures "or face action" (Careers360). Compliance was about 40% complete in one earlier analysis (Careers360), so many records will need the school's own contact page instead. The exact 2026 field list could not be read, because the circular PDF is a scanned image.

The other sources rank below the disclosure. CISCE's official locator (about 3,244 schools) shows head and admin contacts, though it refused automated fetches (CISCE locator). Each KV has an official site at <name>.kvs.ac.in that hosts its CBSE disclosure (KV Kutra). Each JNV has a page under navodaya.gov.in/nvs/nvs-school/<district>/. UDISE+ is the source to avoid. It collects each school's phone and email (UDISE+ DCF 2023-24), but there is no evidence it publishes them. Contacts lifted from a logged-in portal would not be "made publicly available", so they fall outside the DPDP exclusion discussed in the next section. No SARAS bulk export or terms of use were found, so build the list by hand or with light, polite tooling, and ask the lawyer before scraping anything.

Keep the prospect list **private**. The repository's `.gitignore` excludes `.*private*.` and `docs/research/interviews/`. On 10 November 2026, `git check-ignore -v docs/research/prospects.private.csv` confirmed the rule matches. Use a file such as `docs/research/prospects/launch-schools.private.csv`, run `git check-ignore -v` on it before the first save, and never paste rows into a public report, a commit message or an issue. The record should stay at institution level:

Field	Rule
School name, affiliation no., city, district	From SARAS
School type, classes offered, affiliation valid to	From SARAS and the disclosure; drop lapsed schools
Official school email, office phone, website	From the disclosure or the school's contact page; prefer office@, principal@ or info@ at the school's domain
Head's designation	Record the role; record a name only if the disclosure publishes it and you need it for a letter
Source URL and date captured	**Required for every contact**: this is the DPDP provenance record
Segment	Standalone, federated chain, Sahodaya member (and which Sahodaya), central chain
Contact log, opt-in status, suppression flag	One line per touch; any "stop" moves the school to suppression permanently

Field	Rule
Excluded	Personal mobiles, personal email addresses, purchased lists, anything from UDISE+ or a logged-in portal, and interview notes (keep those in the ignored interviews folder)

Email the school office; never cold-WhatsApp or pay a commission

Data protection. Section 3(c)(ii) of the DPDP Act excludes personal data made public by the person themselves, or by someone under a legal obligation to publish it (India Briefing, 10 Sep 2026). A principal's official contact in a CBSE-mandated disclosure plausibly fits the second limb. No court has tested this, commentators warn that reuse for commercial profiling is unsettled (Law School Policy Review, Jan 2026), and firms are told to document how each item became public. The DPDP Rules were notified in November 2025. Their main obligations (notice, security, erasure and breach reporting) start on **13 or 14 May 2027**; sources differ on the date (Storyboard18). The CRM built in December will still be running then. The source-URL rule, a retention limit (12-24 months after last contact is a suggested policy, not a legal requirement) and a permanent suppression list should be in place from the start.

Calls and SMS. TRAI's February 2025 amendments to TCCCPR require commercial senders to register on the telcos' DLT platform. Promotional calls must use the **140** series and service calls the **1600** series, and telemarketing from ordinary 10-digit numbers is banned (TRAI PR 11/2025). Five complaints in ten days can bar a sender's outgoing services for 15 days. A repeat brings one year's disconnection and blacklisting (FoneArena). Whether this covers B2B calls is before the Delhi High Court in IndiaMART's challenge. Notice was issued on 23 December 2025, and no outcome was found (Bar & Bench). Assume it applies. Keep phone use to scheduling calls with school offices that have already replied, and route any bulk SMS or scripted calling through DLT-registered infrastructure.

Email and WhatsApp. India has no standalone anti-spam statute (iPleaders). Email to official school addresses is the lawful default, under DPDP and consumer-protection limits. Good practice is an authenticated company domain (SPF, DKIM and DMARC), the company's name and postal address, a factual subject line that does not suggest CBSE endorsement, low volumes and a one-click opt-out that is honoured permanently. WhatsApp needs "opt-in permission from the recipient" before any business-initiated message. Messages outside the 24-hour window must use approved templates, and an organisation-wide ban is the penalty for unauthorised messaging at scale (WhatsApp Business Messaging Policy). Use WhatsApp only after a school ticks a box on a CodeSchool form or replies "yes, WhatsApp me". Keep that record.

No inducements. Commissions now carry criminal exposure. In Jabalpur, a 2024 "books commission" case led to FIRs against 51 people, and in April 2026 the Madhya Pradesh High Court refused to quash them (SCC Online). Delhi barred schools on 1 April 2026 from forcing purchases from specific vendors (Business Today). CBSE told schools in 2017 to stop "coercing parents" into buying from selected vendors (CBSE circular, 19 Apr 2017). CodeSchool's ground rule is already written into its distributor brief: no commissions, gifts or donations to schools or staff (distributor enquiry). The offer should be a published price, a written list of what the school receives (kits, teacher books, orientation), and at least two booksellers plus online. Specimens should be modest and logged by school, to the coordinator or teacher, with the principal's knowledge.

The lawyer should answer these questions before outreach begins in December:

#	Question for an Indian lawyer	Why it matters
1	Does a principal's contact in an Appendix IX disclosure fall within DPDP s.3(c)(ii), given that the school's duty exists to inform parents, not vendors?	Decides whether the prospect list needs a lawful basis and a notice from May 2027
2	Does compiling and reusing such contacts for sales count as purpose drift that takes them outside the exclusion?	Aggregation risk
3	Do TCCCPR 2025 rules cover one-to-one calls from a staff mobile to a school landline, and what happened in IndiaMART v. TRAI after March 2026?	Sets the phone policy
4	Are free specimens, a free pilot, free kits for adopting sections, or a transparent institutional discount lawful under CBSE bye-laws, state fee Acts and the conduct rules for government school staff? Where is the line?	Separates normal publisher practice from an inducement

#	Question for an Indian lawyer	Why it matters
5	Do the SARAS and CISCE terms permit systematic collection, and does the IT Act's computer-access provision limit tooling?	List-building method
6	From May 2027, what notice, retention and erasure duties apply to prospect data held as a Data Fiduciary?	CRM design

A five-wave sequence fits the 29 January booklist close

The interview weeks set the first constraint. The plan promises schools that interviews from 16 November to 11 December are research only. Interviewers can ask at the end whether a school would like a specimen follow-up, and they should record the answer, but they should not pitch. Sales outreach waits for specimens (15 December) and the go/no-go check (18 December) (launch plan). The second constraint is that only the private-school rows of the decision map can adopt by 29 January. Everything aimed at chains' head offices and government is planting for 2027-28 pilots.

Wave	Dates	Who	Action and channel	Gate or output
0. Build	10 Nov-15 Dec	Internal	Build the private list for launch cities from SARAS and disclosures; set up domain authentication, the suppression list and an opt-in form; brief the lawyer on the six questions; visit DIDAC (25-27 Nov) to scout, without exhibiting; email Sahodaya secretaries' school offices asking about January training dates, with no commitment	Target list (suggested size 300-500 schools); lawyer's view by early December
1. Research	16 Nov-11 Dec	Interview schools only	Interviews; at the end, ask whether the school wants a specimen visit	Research-only; consent for follow-up recorded
2. Warm follow-up	16-23 Dec	Interview schools that agreed	Specimen visits to the principal and coordinator; leave the specimen and a one-page price and terms sheet	Interest list; go/no-go on 18 Dec
3. Open outreach	From 18 Dec if "go", heavy from 4 Jan	Standalone and federated-chain schools in launch cities; Sahodayas; DPS Society, Bhavan's and Chinmaya central offices	One formal email to the official school address, with a letterhead PDF and an offer of a specimen and a 30-minute demo; phone the office only to schedule; free CT&AI teacher workshops with one Sahodaya per city; letters asking federated centres to circulate an introduction	Workshops 4-22 Jan; specimens in coordinators' hands by mid-January
4. Close	18-29 Jan	Schools that saw specimens	Send each adopting school its booklist entry text (title, ISBN, price, two or more booksellers and online); confirm sections	Adoptions by 29 Jan; section counts by 1 Feb
5. Plant for 2027-28	Jan-Mar 2027	Central chains (DAV, Podar, Orchids, Narayana, Sri Chaitanya, Lighthouse, MRIS); NESTS, KVS JC (Acad), NVS Hyderabad RO and NLI, AWES; CSR funders	Formal letters to published mailboxes proposing a funded pilot in two or three schools from mid-2027 or January 2028, using the January-March pilot results; identify one CSR funder and implementing NGO	One chain pilot and one government or CSR pilot signed for 2027-28

A target of 10 or more adopting schools by 29 January, the plan's own early-warning line, is achievable only through waves 2-4. That makes the Sahodaya workshops the decisive bet. One well-run workshop puts specimens before the proposers in 5-100 schools at once, inside a CBSE-sanctioned training theme. A cold email reaches one office that may never forward it. The IPSC conclave (4-6 January) is useful for credibility with elite heads but too small for volume. The EducationWorld conclave in October comes after booklists close.

Conclusion

The research turns the question of contacts into a question of timing. The documented gatekeepers for an April 2027 booklist are a few thousand principals and managements. CBSE has handed CodeSchool the reason to meet them, a mandated curriculum with a training theme, and the address book, a disclosure every school must publish. The bodies with the grandest reach (KVS, NVS, the state Samagra Shiksha offices and the large central chains) are the slowest. They buy through MoUs and CSR rather than specimens, and their 2027-28 value is the evidence they would lend CodeSchool, not this season's revenue. CodeSchool should spend this winter in Sahodaya training rooms and school offices, and send head-office letters only once the January-March pilot gives them something to say.

The less obvious implication is that compliance is now a selling point, not just a cost. With MP's commission FIRs, Delhi's vendor directive and DPDP duties starting in May 2027, a principal who adopts a new title is taking a small personal risk. A published price, open-market availability, no commission, a logged specimen trail and a provenance-tracked contact list are exactly what a cautious principal or a government office needs to see. Building the private prospect list correctly in November is the first piece of that offer, not paperwork that precedes it.

Appendix: CBSE regional offices and Centres of Excellence

This table gives office contacts only. All entries come from CBSE's Regional Offices page and COE heads page, both retrieved on 10 November 2026 (the RO page was last updated on 1 May 2025, the COE page on 9 November 2026). The RO page's jurisdiction notes are stale, and about 24 ROs now exist. † marks a Gmail address or mobile number that CBSE itself lists as an office contact; re-verify before use.
